**The UK Pesticide Guide 2020** - Martin A. Lainsbury 2020

By far the biggest change to The UK Pesticide Guide in 2020 is the loss of a number of active ingredients that have been fundamental to many crop protection programmes. The final use-up of chlorothalonil formulations; propiconazole, fenpropimorph, chloridazon and diquat occurs in 2020 but there are also a few exciting new additions. Aclonifen is a new residual herbicide for use in potatoes that already has a number of EAMUs for use in minor crops. BASF is launching its new triazole, mefentrifluconazole, which promises to restore full triazole activity, at least initially. On the insecticide front the new active ingredient from Corteva agriscience, sulfoxaflor, is now listed for use in Cucurbitae and ornamentals under full protection for control of aphids and whitefly.

Grassroots Innovation - Anil K Gupta 2016-07-20

A moral dilemma gripped Professor Gupta when he was invited by the Bangladeshi government to help restructure their agricultural sector in 1985. He noticed how the marginalized farmers were being paid poorly for their otherwise unmatched knowledge. The gross injustice of this constant imbalance led Professor Gupta to found what would turn into a resounding social and ethical movement—the Honey Bee Network—bringing together and elevating thousands of grassroots innovators. For over two decades, Professor Gupta has travelled through rural lands unearthing innovations by the ranks—from the famed Mitti Cool refrigerator to the footbridge of Meghalaya. He insists that to fight the largest and most persistent problems of the world we must eschew expensive research labs and instead, look towards ordinary folk. Innovation—that oft-flung around word—is stripped to its core in this book. Poignant and personal, Grassroots Innovation is an important treatise from a social crusader of our time.

**Designing for the Disabled: The New Paradigm** - Selwyn Goldsmith 2012-09-10

Selwyn Goldsmith's Designing for the Disabled has, since it was first published in 1963, been a bible for practising architects around the world. Now, as a new book with a radical new vision, comes his Designing for the Disabled: The New Paradigm. Goldsmith's new paradigm is based on the concept of architectural disability. As a version of the social model of disability, it is not exclusively the property of physically disabled people. Others who are afflicted by it include women, since men customarily get proportionately four times as many amenities in public toilets as women - and women have to queue where men do not - and those with infants in pushchairs, because normal WC facilities are invariably too small to get a pushchair and infant into. To counter architectural disability, Goldsmith's line is that the axiom for legislation action has to be 'access for everyone' - it should not just be 'access for the disabled', as it presently is with the Part M building regulation and relevant provisions of the 1995 Disability Discrimination Act. In a 40-page annex to his book he sets out the terms that a new-style Part M regulation and its Approved Document might take, one that would cover alterations to existing buildings as well as new buildings. But architects and building control officers need not, he says, wait for new a legislation to apply new practical procedures to meet the requirements of the current Part M regulation; they can, as he advises, act positively now. This is a book which will oblige architects to rethink the methodology of designing for the disabled. It is a book that no practising architect, building control officer, local planning officer or access officer can afford to be without.

**God Gave Me Everything I Need to Be Me!** - Karen Henneck 2021-04-08

God created animals with everything they needed. To be content and succeed, He designed homes perfectly suited to each one. However, the animals were unhappy with the places that God had made for them and eventually gave into the insecurities and fears they all felt. Owl was frightened of the dark, Mountain Goat became faint-hearted as he looked down from the narrow mountain ledge. Duck panicked every time she neared the water. Camel detested the hot, dry wind and Penguin hated the icy cold. Through whimsical illustrations and creative prose, "God Gave Me Everything I Need To Be Me!" encourages self acceptance, individuality and appreciation as the animals finally realize God had given them exactly what each one required to make them complete.
