How to Build Max-Performance Ford FE Engines Barry Rabortnick 2010 The Ford FE (Ford Edsel) engine is one of the most popular engines Ford ever produced, and it powered most Ford and Mercury cars and trucks from the late 1950s to the mid-1970s. For many of the later years, FE engines were used primarily in truck applications. However, the FE engine is experiencing a renaissance; it is now popular in high-performance street, strip, muscle cars, and even high-performance trucks. While high-performance build-up principles and techniques are discussed for all engines, author Barry Rabortnick focuses on the max-performance build-up for the most popular engines: the 390 and 428. With the high-performance revival for FE engines, a variety of builds are being performed from stock blocks with mild head and cam work to complete aftermarket engines with aluminum blocks, high-flow heads, and aggressive roller cams. How to Build Max-Performance Ford FE Engines shows you how to select the ideal pistons, connecting rods, and crankshafts to achieve horsepower requirements for all applications. The chapter on blocks discusses the strengths and weaknesses of each particular block considered. The book also examines head, valvetrain, and cam options that are best suited for individual performance goals. Also covered are the best-flowing heads, rocker-arm options, lifters, and pushrods. In addition, this volume covers port sizing, cam lift, and the best rocker-arm geometry. The FE engines are an excellent platform for stroking, and this book provides an insightful, easy-to-follow approach for selecting the right crank, connecting rods, pistons, and making the necessary block modifications. This is the book that Ford FE fans have been looking for.

Judeophobia Peter Schafer 1997 Taking a fresh look at what the Greeks and Romans thought about Jews and Judaism, Peter Schäfer locates the origin of anti-Semitism in the ancient world. Judeophobia firmly establishes Hellenistic Egypt as the generating source of anti-Semitism, with roots extending back into Egypt's pre-Hellenistic history. A pattern of ingrained hostility toward an alien culture emerges when Schäfer surveys an illuminating spectrum of comments on Jews and their religion in Greek and Roman writings, focusing on the topics that most interested the pagan classical world: the exodus or, as it was widely interpreted, expulsion from Egypt; the nature of the Jewish god; food restrictions, in particular abstinence from pork; laws relating to the sabbath; the practice of circumcision; and Jewish proselytism. He then probes key incidents, two fierce outbursts of hostility in Egypt: the destruction of a Jewish temple in Elephantine in 410 B.C.E. and the riots in Alexandria in 38 C.E. Asking what fueled these attacks on Jewish communities, the author discovers deep-seated ethnic resentments. It was from Egypt that hatred of Jews, based on allegations of impiety, xenophobia, and misanthropy, was transported first to Syria-Palestine and then to Rome, where it acquired a new element: fear of this small but dedicated community. To the hatred and fear, ingredients of Christian theology were soon added--a mix all too familiar in Western history.

It also compares the theory with practical measurements. The book commences with composite mechanics, which is the fundamental theory for belt and carcass tires, and covers classical, modified and discrete lamination theory. It then addresses the theory of tire shape and spring properties and the mechanics of tread pattern contact properties, as was well as the performance of various tires. This comprehensive book is a valuable resource for engineers involved in tire design and offers unique insights and examples of improvement of tire performances.

GAAP Financial Statement Disclosures Manual, 2019-2020 George Georgiades 2019-08-30

The GAAP Financial Statement Disclosures Manual provides a complete, quick, and valuable reference source for financial statement disclosures and key presentation requirements. Specifically, the Manual: - Provides over 750 examples of realistic sample footnote disclosures to assist in the preparation of financial statements for an audit, a review, or a compilation engagement. - Facilitates compliance with U.S. GAAP by integrating, in each chapter, the specific disclosure and key presentation requirements with the sample footnotes. - Provides sample disclosures that are technically sound, understandable, and comprehensive and that cover a variety of scenarios, from the most common to the most unusual. - Incorporates all currently effective accounting standards, including those that cover areas of unusual difficulty, such as revenue recognition, financial instruments, fair value, business combinations, consolidation, income taxes, pensions, leases, accounting changes, and variable interest entities. This Manual is arranged into the following major parts, consistent with the Codification's structural organization: - Part 1 General Principles (ASC Topics 100s) - Part 2 Presentation (ASC Topics 200s) - Part 3 Assets (ASC Topics 300s) - Part 4 Liabilities (ASC Topics 400s) - Part 5 Equity (ASC Topics 500s) - Part 6 Revenue (ASC Topics 600s) - Part 7 Expenses (ASC Topics 700s) - Part 8 Broad Transactions (ASC Topics 800s) The Manual is designed for ease of use. Accordingly, each chapter is structured as a stand-alone chapter, providing you with all the information you'll need on a specific topic. The majority of chapters consist of the following parts: 1. Executive Summary. This section provides a clear and concise overview of the specific financial statement topic. 2. Authoritative Accounting Literature. This section provides reference to the relevant FASB ASC Topic. 3. Disclosure and Key Presentation Requirements. This section provides a detailed listing of (a) the disclosure requirements (FASB ASC Section 50) and (b) those key presentation requirements (FASB ASC Section 45) that are relevant to enhance compliance with and better understand the disclosure requirements. This section also provides specific references to the FASB ASC paragraphs that prescribe the specific disclosure or key presentation requirement. Some of the items included in this section do not refer to any specific authoritative literature. Nevertheless, the disclosure or presentation items they address are considered informative for users of the financial statements and usually are disclosed or presented. These disclosures or presentation items are generally accepted by accountants and auditors and, accordingly, are referenced as "Generally accepted practice" in this section. 4. Examples of Financial Statement Disclosures. This section contains specific examples of disclosures that cover different situations, circumstances, assumptions, and so on. Unless specifically indicated, the examples provided assume that the most recent financial statements presented are for the year ended December 31, 20X2. The 2019-2020 GAAP Financial Statement Disclosures Manual is current through FASB Accounting Standards Update No. 2019-03, Not-for-Profit Entities (Topic 958): Updating the Definition of Collections. Material can be located several ways: the Cross-Reference shows the chapter in which a particular pronouncement is discussed; the Index provides a quick page reference. GAAP Financial Statement Disclosures Manual, 2022-2023 George Georgiades 2022-07-26 The GAAP Financial Statement Disclosures Manual provides a complete, quick, and valuable reference source for financial statement disclosures and key presentation requirements. Specifically, the Manual: - Provides over 750 examples of realistic sample footnote disclosures to assist in the preparation of financial statements for an audit, a review, or a compilation engagement. - Facilitates compliance with U.S. GAAP by integrating, in each chapter, the specific disclosure and key presentation requirements with the sample footnotes. - Provides sample disclosures that are technically sound, understandable, and comprehensive and that cover a variety of scenarios, from the most common to the most unusual. - Incorporates all currently effective accounting standards, including those that cover areas of unusual difficulty,

such as financial instruments, fair value, business combinations, consolidation, income taxes, pensions, accounting changes, and variable interest entities. This Manual is arranged into the following major parts, consistent with the Codification's broad structure: - Part 1 General Principles (Topic Codes 100s) - Part 2 Presentation (Topic Codes 200s) - Part 3 Assets (Topic Codes 300s) - Part 4 Liabilities (Topic Codes 400s) - Part 5 Equity (Topic Codes 500s) - Part 6 Revenue (Topic Codes 600s) - Part 7 Expenses (Topic Codes 700s) - Part 8 Broad Transactions (Topic Codes 800s) The Manual is designed for ease of use. Accordingly, each chapter is structured as a stand-alone chapter, providing you with all the information you'll need on a specific topic. Each chapter consists of the following parts: 1. Executive Summary. This summary provides a clear and concise discussion of the specific financial statement topic. 2. Authoritative Accounting Literature. This section provides reference to the relevant FASB ASC Topic. 3. Disclosure and Key Presentation Requirements. This section provides a detailed listing of (a) the disclosure requirements (FASB ASC Section 50) and (b) those key presentation requirements (FASB ASC Section 45) that are relevant to enhance compliance with and better understand the disclosure requirements. This section also provides specific references to the FASB ASC paragraphs that prescribe the specific disclosure or key presentation requirement. Some of the items included in this section do not refer to any specific authoritative literature. Nevertheless, the disclosure or presentation items they address are considered informative for users of the financial statements and usually are disclosed or presented. These disclosures or presentation items are generally accepted by accountants and auditors and, accordingly, are referenced as "Generally accepted practice" in this section. 4. Examples of Financial Statement Disclosures. This section contains specific examples of disclosures that cover different situations, circumstances, assumptions, and so on. Unless specifically indicated, the examples provided assume that the most recent financial statements presented are for the year ended December 31, 20X2. This edition of the Manual incorporates the financial statement disclosure requirements through FASB Accounting Standards Update No. 2022-02, Financial Instruments--Credit Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures. Material can be located several ways: the Cross-Reference shows the chapter in which a particular pronouncement is discussed; the Index provides a quick page reference.
