**Catalog of British
Motorcycles** - Floyd Clymer
2014-03

84 pages, 83 black & white
illustrations, size 8.25 x 11
inches. Published in the USA
under the same title in 1951 by
Floyd Clymer, the original
publication was a pocket sized
landscape format book and it is
often criticized as difficult to
read due to its small print size.
Consequently, this edition was
re-formatted into a larger and
more conventional portrait size
which has increased the text
size by almost 40%. This
publication provides the reader
with an insight into the
country, and the
manufacturers, that were
ultimately destined to succumb
to the dominance of the
Japanese motorcycle industry.
A total of 33 different British
motorcycle manufacturers and
their various models are
included and sadly, less than a
handful of those 33
manufacturers survive today. A
'must have' resource for any
motorcycle enthusiast and an
invaluable reference for anyone
interested in British 'iron'.
Many of the motorcycles
featured within are highly
collectible today and the

predominance of these early manufacturers no longer exist. This truly historical documentation of the glory years of British motorcycle manufacturing has been out-of-print and unavailable for many years and is becoming increasingly more difficult to find on the secondary market. We are pleased to be able to offer this reproduction as a service to all motorcycle enthusiasts worldwide.
