[Understanding Trusts and Estates, Fifth Edition \(2013\)](#) - Roger W. Andersen 2013-06-19

This volume updates earlier editions to continue offering efficient, yet comprehensive, coverage of the issues in a standard Trusts and Estates course. Although the book is designed primarily as a student supplement, some teachers have used it successfully as the primary text, supplemented by statutory materials, for both the basic course and for more specialized courses. The text's multi-layered structure allows students to use the book in different ways, depending upon their needs. Students using the book as a regular supplement to a casebook can read the text and ignore the footnotes until they need more examples or greater depth. The organization tracks the basic approach of most casebooks, and where it differs from an individual book, the comprehensive table of contents makes it easy to find what students need. By discussing many of the cases found in popular casebooks, the text helps students understand how specific issues fit in a bigger picture. The footnotes carry the student-centered approach a step further by

briefly discussing tangential issues, offering additional examples, and again citing cases often found in casebooks. Even if the text does not discuss "their" case, often it will cite the case and place it in context. Each case citation includes a brief fact description to provide more examples of the way general principles can apply in specific situations. Further, the footnotes include numerous cross-references to other sections of the book, to help students identify the interconnections holding the subject together.

**Real Estate Law in California** - Arthur G. Bowman 1978

"The 5th edition of Real Estate Law in California expands on the important areas of contracts in general, and the duties and responsibilities of real estate agents to their principals and buyers. The book further updates the newer code sections and cases in other areas such as deeds of trust, foreclosures and landlord-tenant laws. Strong emphasis is placed on real estate contracts and the text follows, chapter by chapter, the new Instructor's Guide and Student Study Guide published by the Department of Real Estate. It offers a considerable

number of newer case and code citations along with specific court cases and examples. Stimulating questions at the end of each chapter reinforce major points and expand understanding. The book is easily read and understood. Beginning with an explanation of the law, it follows real estate transactions through to completion. Both the index and table of contents provide a quick guide to a particular area of the real estate law. As the authors explain in their Preface, 'As in previous editions, the main objective of this book is to acquaint all persons interested in real estate with the facts of California real estate law. It will give them a better understanding of and a thorough acquaintance with the principles of real estate law in this state'--Unedited summary from book cover.
