Mrs. Keppel and Her Daughter - Diana Souhami 2014-10-14
Alice Keppel, the married lover of Queen

Victoria's eldest son and great-grandmother to Camilla Parker-Bowles, was a key figure in Edwardian society. Hers was the acceptable face of adultery. Discretion was her hallmark. It was her art to be the king's mistress and yet to laud

the Royal Family and the institution of marriage. Formidable and manipulative, her attentions to the king brought her wealth, power, and status. Her daughter Violet Trefusis had a long tempestuous affair with the author and aristocrat Vita Sackville-West, during which Vita left her husband and two sons to travel abroad with Violet. It was a liaison that threatened the fabric of Violet's social world, and her passion and recalcitrance in pursuit of it pitted her against her mother and society. From memoirs, diaries, and letters, Diana Souhami portrays this fascinating and intense mother/daughter relationship in *Mrs. Keppel and Her Daughter*. Her story of these women, their lovers, and their lovers' mothers, highlights Edwardian - and contemporary - duplicity and double standards and goes to the heart of questions about sexual freedoms.

Beyond the Mountain - Steve House 2013-10-06
What does it take to be one of the world's best high-altitude mountain climbers? A lot of fundraising; traveling in some of the world's most dangerous countries; enduring cold bivouacs, searing lungs, and a cloudy mind when you can least afford one. It means learning the hard lessons the mountains teach. Steve House built his reputation on ascents throughout the Alps, Canada, Alaska, the Karakoram and the Himalaya that have expanded possibilities of style, speed, and difficulty. In 2005 Steve and alpinist Vince Anderson pioneered a direct new route on the Rupal Face of 26,600-foot Nanga Parbat, which had never before been climbed in alpine style. It was the third ascent of the face and the achievement earned Steve and Vince the first Piolet d'or (Golden Ice Axe) awarded to North Americans. Steve is an accomplished and spellbinding storyteller in the tradition of Maurice Herzog and Lionel Terray. *Beyond the Mountain* is a gripping read destined to be a

mountain classic. And it

Grass Beyond the Mountains. Discovering the Last Great Cattle Frontier on the North American Continent. [With Maps.] - Richmond Pearson Hobson (the Younger.) 1952

Arc of Justice - Kevin Boyle 2007-04-01

An electrifying story of the sensational murder trial that divided a city and ignited the civil rights struggle In 1925, Detroit was a smoky swirl of jazz and speakeasies, assembly lines and fistfights. The advent of automobiles had brought workers from around the globe to compete for manufacturing jobs, and tensions often flared with the KKK in ascendance and violence rising. Ossian Sweet, a proud Negro doctor-grandson of a slave-had made the long climb from the ghetto to a home of his own in a previously all-white neighborhood. Yet just after his arrival, a mob gathered outside his house; suddenly, shots rang out: Sweet, or one of his defenders, had accidentally killed one of the whites threatening their lives and homes. And so it began-a chain of events that brought America's greatest attorney, Clarence Darrow, into the fray and transformed Sweet into a controversial symbol of equality. Historian Kevin Boyle weaves the police investigation and

courtroom drama of Sweet's murder trial into an unforgettable tapestry of narrative history that documents the volatile America of the 1920s and movingly re-creates the Sweet family's journey from slavery through the Great Migration to the middle class. *Ossian Sweet's story*, so richly and poignantly captured here, is an epic tale of one man trapped by the battles of his era's changing times. *Arc of Justice* is the winner of the 2004 National Book Award for Nonfiction.

Braiding Sweetgrass - Robin Wall Kimmerer
2013-09-16

As a botanist, Robin Wall Kimmerer has been trained to ask questions of nature with the tools of science. As a member of the Citizen Potawatomi Nation, she embraces the notion that plants and animals are our oldest teachers.

In *Braiding Sweetgrass*, Kimmerer brings these two lenses of knowledge together to take us on “a journey that is every bit as mythic as it is scientific, as sacred as it is historical, as clever as it is wise” (Elizabeth Gilbert). Drawing on her life as an indigenous scientist, and as a woman, Kimmerer shows how other living beings—asters and goldenrod, strawberries and squash, salamanders, algae, and sweetgrass—offer us gifts and lessons, even if we've forgotten how to hear their voices. In reflections that range from the creation of Turtle Island to the forces that threaten its flourishing today, she circles toward a central argument: that the awakening of ecological consciousness requires the acknowledgment and celebration of our reciprocal relationship with the rest of the living world. For only when we can hear the languages of other beings will we be capable of understanding the generosity of the earth, and learn to give our own gifts in return.

Where the Rivers Run North - Sam Morton

2014-06-03

ONE HUNDRED THOUSAND TRAVELERS had crossed the Oregon Trail during the gold rush of 1849. Even the most backwoods warrior understood what that meant: disease, death, and conflict with the whites. As a result of the Treaty of 1851, some Indians were convinced that the country to the north—called Absaraka—might be a better option for a home range. At the very least, it held the promise of less trouble from the whites. The danger from other tribes was another matter.

[Grass Beyond the Mountains](#) - Richmond P.

Hobson 2015-04-14

The first in a trilogy, *Grass Beyond the Mountains* is a story of discovery and endurance on North America's western frontier by three good old-fashioned cowboys. With laconic cowboy humor and the ease of a born writer, Richmond Hobson describes the life-and-death escapades, the funny and tragic incidents peopled with extraordinary frontier characters, in a true adventure that surpasses the most thrilling Wild West fiction. In the fall of 1934, three cowhands with a dream of owning a cattle ranch made their way from peaceful Wyoming to

the harsh, uncharted territory of the British Columbian interior. In conditions as challenging as any encountered by the western frontier pioneers of a hundred years earlier, the three men and their equipment-laden horses conquered the tortuous miles over narrow passes and mountain summits, hewed their first cabin from virgin timber, and attempted to carve out a space for themselves on the unforgiving landscape. Gritty, fun, and endlessly entertaining, Hobson's story is sure to entertain country- and city-dwellers alike.

[Finding the Mother Tree](#) - Suzanne Simard

2021-05-04

NEW YORK TIMES BEST SELLER • From the world's leading forest ecologist who forever changed how people view trees and their connections to one another and to other living things in the forest—a moving, deeply personal

journey of discovery Suzanne Simard is a pioneer on the frontier of plant communication and intelligence; her TED talks have been viewed by more than 10 million people worldwide. In this, her first book, now available in paperback, Simard brings us into her world, the intimate world of the trees, in which she brilliantly illuminates the fascinating and vital truths--that trees are not simply the source of timber or pulp, but are a complicated, interdependent circle of life; that forests are social, cooperative creatures connected through underground networks by which trees communicate their vitality and vulnerabilities with communal lives not that different from our own. Simard writes--in inspiring, illuminating, and accessible ways—how trees, living side by side for hundreds of years, have evolved, how they learn and adapt their behaviors, recognize neighbors, compete and cooperate with one another with sophistication, characteristics ascribed to human intelligence, traits that are

the essence of civil societies--and at the center of it all, the Mother Trees: the mysterious, powerful forces that connect and sustain the others that surround them. And Simard writes of her own life, born and raised into a logging world in the rainforests of British Columbia, of her days as a child spent cataloging the trees from the forest and how she came to love and respect them. And as she writes of her scientific quest, she writes of her own journey, making us understand how deeply human scientific inquiry exists beyond data and technology, that it is about understanding who we are and our place in the world.

Himalaya: A Human History - Ed Douglas
2021-01-05

A magisterial history of the Himalaya: an epic story of peoples, cultures, and adventures among the world's highest mountains. For centuries, the unique and astonishing geography of the Himalaya has attracted those in search of spiritual and literal elevation: pilgrims,

adventurers, and mountaineers seeking to test themselves among the world's most spectacular and challenging peaks. But far from being wild and barren, the Himalaya has been home to a diversity of indigenous and local cultures, a crucible of world religions, a crossroads for trade, and a meeting point and conflict zone for empires past and present. In this landmark work, nearly two decades in the making, Ed Douglas makes a thrilling case for the Himalaya's importance in global history and offers a soaring account of life at the "roof of the world." Spanning millennia, from the earliest inhabitants to the present conflicts over Tibet and Everest, Himalaya explores history, culture, climate, geography, and politics. Douglas profiles the great kings of Kathmandu and Nepal; he describes the architects who built the towering white Stupas that distinguish Himalayan architecture; and he traces the flourishing evolution of Hinduism, Islam, and Buddhism that brought Himalayan spirituality to

the world. He also depicts with great drama the story of how the East India Company grappled for dominance with China's emperors, how India fought Mao's Communists, and how mass tourism and ecological transformation are obscuring the bloody legacy of the Cold War. Himalaya is history written on the grandest yet also the most human scale—encompassing geology and genetics, botany and art, and bursting with stories of courage and resourcefulness.

Beyond the Home Ranch - Diana Phillips 2012
Diana Phillips, daughter of Canadian folk legend Pan Phillips, shares more extraordinary tales about her life on the ranch in the remote British Columbian backcountry. Two years after publishing Beyond the Chilcotin, her remarkable memoir about growing up on her famous father's pioneer ranch in the Chilcotin, Diana Phillips continues her story. Discouraged by a huge loss of cattle to grizzlies on killing sprees, Pan sells the Home Ranch and decides to set up a fishing

and guiding venture on nearby Tsetzi Lake. Diana spends a couple of seasons working with her father at the very rustic lodge, now catering to the needs of guests paying for a wilderness experience, rather than a cattle operation, but soon follows the call of ranch life back to the Home Ranch, until she marries and gets a cabin and land of her own nearby. Working her ranch and raising her young family, as well as helping out a series of owners at Home Ranch, Diana survives lean times and becomes a masterful rancher in her own right--driving cattle along rugged trails to and from Nazko, leading hunts in the Ilgachuz Mountains and midwifing stubborn calves, not to mention fending off grizzlies and mounting rescue missions for all manner of strays. Diana's incredible memory for detail--from the taste of strawberry jam and bannock, and the beauty of a poplar grove in fall, to the time she taught a rude drunk a lesson by hitting him repeatedly in the head with her boot--makes her account of a near-pioneer life in the

Blackwater country an inspiring and entertaining read.

When Breath Becomes Air - Paul Kalanithi
2016-01-12

#1 NEW YORK TIMES BESTSELLER • PULITZER PRIZE FINALIST • This inspiring, exquisitely observed memoir finds hope and beauty in the face of insurmountable odds as an idealistic young neurosurgeon attempts to answer the question What makes a life worth living? NAMED ONE OF PASTE'S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • People • NPR • The Washington Post • Slate • Harper's Bazaar • Time Out New York • Publishers Weekly • BookPage Finalist for the PEN Center USA Literary Award in Creative Nonfiction and the Books for a Better Life Award in Inspirational Memoir At the age of thirty-six, on the verge of completing a decade's worth of training as a

neurosurgeon, Paul Kalanithi was diagnosed with stage IV lung cancer. One day he was a doctor treating the dying, and the next he was a patient struggling to live. And just like that, the future he and his wife had imagined evaporated. When *Breath Becomes Air* chronicles Kalanithi's transformation from a naïve medical student "possessed," as he wrote, "by the question of what, given that all organisms die, makes a virtuous and meaningful life" into a neurosurgeon at Stanford working in the brain, the most critical place for human identity, and finally into a patient and new father confronting his own mortality. What makes life worth living in the face of death? What do you do when the future, no longer a ladder toward your goals in life, flattens out into a perpetual present? What does it mean to have a child, to nurture a new life as another fades away? These are some of the questions Kalanithi wrestles with in this profoundly moving, exquisitely observed memoir. Paul Kalanithi died in March 2015,

while working on this book, yet his words live on as a guide and a gift to us all. "I began to realize that coming face to face with my own mortality, in a sense, had changed nothing and everything," he wrote. "Seven words from Samuel Beckett began to repeat in my head: 'I can't go on. I'll go on.'" When *Breath Becomes Air* is an unforgettable, life-affirming reflection on the challenge of facing death and on the relationship between doctor and patient, from a brilliant writer who became both.

Dakota Cowboy - Ike Blasingame 1964-01-01
"I've known about Ike Blasingame all my life, knew many of his fellow punchers, white and Indian. Ike was certainly a salty representative of the Texas bronc twister when he came North with that most romantic of cow outfits, the British-owned Matador. . . . [He] takes the reader across the treacherous Missouri River as the spring-softened ice goes out under the horses' feet, into the still wild cow towns, through the round-ups, the prairie fires. . . . There is the authentic smell and feel of the Northern cow country of fifty years ago in the story Ike Blasingame tells."-Mari Sandoz
"Here is one of the most gripping Western tales since Andy Adams' *The Log of a Cowboy* was published in 1903. The telling is considerably like Adams'-warm, human, flavorful. The author, a one-time Matador ranch cowboy, . . . lived his story, and he tells it straight in the language of the cow country without contrivance."-New York Times
"Many of the cowboys who have written

about their experiences never really looked at any wider segment of the cattle business than

was visible between their horses' ears, but Ike Blasingame did. He paints a big picture without omitting details."-New York Herald-Tribune
