JU 87 Stuka Manual describes the design,

**Creating Mr. Kortan** - Urban Monk 2020-03-22  
More than a memoir of a custom cafe racer build  
this book is a tribute to a teacher who inspired  
young people to be creative with their minds and  
capable with their hands. Growing up in Fargo,  
North Dakota in the 1970s and 80s, The Urban  
Monk had the opportunity to develop a love for  
machines, metal working and motorcycles. This  
book provides a glimpse into what life was like  
for the author and his young friends in Fargo  
during that time. It is also a poignant defense of  
industrial arts education in public schools. After  
an over three year effort building a custom cafe  
racer in his spare time and documenting the  
entire process in videos shared with the world

on his YouTube channel Urban Monk TV, the author tells the story of how this project became more than a custom motorcycle build - it became a tribute to his middle school Metal Shop teacher who inspired him to go on to a life time of peaceful meditation in his garage with a wrench in his hand. Anyone interested in motorcycles, mechanics, do-it-yourself projects or a historical retrospective of life in 70s-80s Fargo will enjoy this pleasant read.

*Kawasaki Z1, Z/KZ900 & Z/KZ1000* - Chris Rooke 2018-09-18

*Kawasaki Z1, Z/KZ900 & Z/KZ1000* is for all owners and enthusiasts of the legendary Kawasaki Z1 900, Z/KZ900 and Z1000 built between 1972 and 1980. The book covers the complete restoration of a 1976 KZ900, from the sourcing of the bike to its completion as a fully restored machine. Every area is covered starting

with advice on the different models, spares availability, and where best to source a bike to restore. Every area of the restoration is then covered in full detail including the engine, frame, gearbox, wheels, suspension and forks, brakes, ancillaries, bodywork and electrics, accompanied by hundreds of clear color photos to illustrate the text. Additional work on a 1974 Z1A model adds complementary information. What really sets this manual apart, however, is the style in which it is written: not as some dull and distant workshop manual but in a friendly, humorous manner by an enthusiast of many years who is able to involve and entertain the reader, as well as guiding them through the restoration process. This is the third restoration guide from Chris Rooke, whose previous works have been a massive hit with mechanics, enthusiasts and restorers throughout the world. Boekblad - 1993-04
