[Climate-Smart Forestry in Mountain Regions](#) - Roberto Tognetti 2021-12-26

This open access book offers a cross-sectoral reference for both managers and scientists interested in climate-smart forestry, focusing on mountain regions. It provides a comprehensive analysis on forest issues, facilitating the implementation of climate objectives. This book includes

structured summaries of each chapter. Funded by the EU's Horizon 2020 programme, CLIMO has brought together scientists and experts in continental and regional focus assessments through a cross-sectoral approach, facilitating the implementation of climate objectives. CLIMO has provided scientific analysis on issues including criteria and indicators, growth dynamics,

management prescriptions, long-term perspectives, monitoring technologies, economic impacts, and governance tools.

The Social Impact of the Arts - Eleonora Belfiore
2008-09-16

An intellectual history of contrasting ideas around the power of the arts to bring about personal and societal change - for better and worse.

A fascinating account of the value and functions of the arts in society, in both the private sphere of individual emotions and self-development and public sphere of politics and social distinction.

Dalle esigenze alle opportunità. La difesa idraulica fluviale occasione per un progetto di

«paesaggio terzo» - Michele Ercolini 2006

This book sets itself specific objective: namely, the consideration of the design of the river landscape as a cultural and social investment. The aim is at "control" of a landscape which is transformed while preserving harmonious

forms and structures that are sustainable from an ecological and environmental aspect, and is continually redesigned on the basis of human requirements, without overwhelming nature. The need for hydraulic defence of the rivers thus becomes an opportunity for a "third landscape" project, a chance to transform "non-places" into "places."

TEMAS (Tell-Me-A-Story) Assessment in Multicultural Societies - Giuseppe

Costantino 2020-08-26

Ethnic minority children now comprise over 75 percent of students in 100 of the largest cities in the United States. However, these students have not been given equal access to, nor benefited from, the contemporary mental health system as have their non-minority peers. TEMAS (Tell-Me-A-Story) Assessment in Multicultural Societies examines the health/mental care system in which professional service providers, including psychologists, labor to offer quality care for youth in the United States. The authors ardently support the use of the TEMAS assessment instrument as a useful tool for diagnosis of all youngsters, particularly its use on the growing population of minority children and adolescents. Part I presents a rationale and

context for employing TEMAS. Introductory chapters describe the mental health status of the population at-risk, as well as systems of care for youth where assessment and intervention are components. Topics to follow highlight a history of positive TEMAS test reviews with the detail required by instructors for preparing dedicated TEMAS courses. The volume thoroughly outlines cross-cultural studies and illustrates case examples of European-American, Hispanic/Latino, Asian-American, and forensic studies. TEMAS (Tell-Me-A-Story) Assessment in Multicultural Societies brings practical insight to instructors who teach standard assessment courses; clinicians, counselors, and school psychologists; assessment specialists; and administrators concerned with mental health services designed for children and adolescents.

The Single Currency and European Citizenship -

Giovanni Moro 2013-02-28

Established in 2002, the Euro is now the currency of 17 countries used by over 335 million people daily. Although the single currency is much discussed in terms of macroeconomics and global finances, policymakers rarely address its impact on European citizenship in social, cultural, political, and everyday life economics terms. This hidden side of the single currency is the focus of the essays, which use various approaches, from economic history and political sociology to citizenship and legitimacy, to reveal the connections between the Euro

and European citizenship. This timely contribution by renowned experts provides a greater understanding of the Euro at a time when it is not clear whether it should be celebrated or commemorated, and looks into aspects of the single currency that are the base of the social trust that supports it and that is at stake in the present crisis. It will be an essential tool to anyone studying the political, social, and economic development of the E.U.

Word Nerd - Susin Nielsen
2016-10-06

Ambrose Bukowski is a twelve-year-old with a talent for mismatching his clothes, for saying the wrong thing at the worst possible time, and for words. In short, he's a self-described nerd. Making friends is especially hard because he and his overprotective mother, Irene, have had to move so often. And when bullies at his latest school almost kill him by deliberately slipping a peanut into his sandwich to set off his allergy, it's his mother who has the extreme reaction. From now on, Ambrose has to be home-schooled. Then Ambrose strikes up an unlikely friendship with the landlord's son, Cosmo, an ex-con who's been in prison. They have nothing in common except for Scrabble. But a small deception grows out of control when Ambrose convinces a reluctant Cosmo to take him to a Scrabble club. Could this spell disaster for Ambrose?

Lois on the Loose - Lois Pryce
2009-07-28

Young and beautiful, Lois Pryce

was a rising star at the BBC. Unbeknownst to her co-workers, Lois lived a parallel life as a biker babe with an overwhelming sense of wanderlust. So she packed in her career to ride her motorcycle on her own from the northernmost tip of Alaska to the southernmost tip of South America. Alone. Armed only with the Spanish words for 'caution' and 'cheese', Lois was rather under-prepared for multiple bear sightings, bribing her way through borders, spending a night in a Mexican brothel and crashing her bike in the wilds of Patagonia. She most certainly got the adventure she craved, and her pulse-pounding, soul-searching adventure has already attracted fans worldwide - a weblog that she kept whilst on her travels was receiving more than two-thousand hits a day. Her hilarious, brilliantly written travelog will appeal to anyone who's ever dreamt of jacking-it-all-in and running away to see the world.

The State of the World's Biodiversity for Food and Agriculture - Food and Agriculture Organization of the United Nations 2019-03-12

The State of the World's Biodiversity for Food and Agriculture presents the first global assessment of biodiversity for food and agriculture worldwide. Biodiversity for food and agriculture is the diversity of plants, animals and micro-organisms at genetic, species and ecosystem levels, present in and around crop, livestock, forest and aquatic production systems. It is essential to the structure, functions and processes of these systems, to livelihoods and food security, and to the supply of a wide range of ecosystem services. It has been managed or influenced by farmers, livestock keepers, forest dwellers, fish farmers and fisherfolk for hundreds of generations. Prepared through a participatory, country-driven process, the report draws on information from 91 country reports to provide a description

of the roles and importance of biodiversity for food and agriculture, the drivers of change affecting it and its current status and trends. It describes the state of efforts to promote the sustainable use and conservation of biodiversity for food and agriculture, including through the development of supporting policies, legal frameworks, institutions and capacities. It concludes with a discussion of needs and challenges in the future management of biodiversity for food and agriculture. The report complements other global assessments prepared under the auspices of the Commission on Genetic Resources for Food and Agriculture, which have focused on the state of genetic resources within particular sectors of food and agriculture. *Erosione e conservazione del suolo* - Vincenzo Bagarello 2006

us to places far beyond our imaginings.” - Lisa Wingate, #1 New York Times Bestselling Author of *Before We Were Yours* and *The Book of Lost Friends* "Ardone's beautifully crafted story explores the meaning of identity and belonging...recommended to fans of Elena Ferrante's Neapolitan novels." - The Library Journal "[The Children's Train] leaves you with a great sense of the importance of family and the tough decisions that must be faced as a result of that love." - Shelf Awareness Based on true events, a heartbreaking story of love, family, hope, and survival set in post-World War II Italy—written with the heart of *Orphan Train* and *Before We Were Yours*—about poor children from the south sent to live with families in the north to survive deprivation and the harsh winters. Though Mussolini and the fascists have been defeated, the war has devastated Italy, especially the south. Seven-year-old Amerigo lives with his mother Antonietta in Naples, surviving

on odd jobs and his wits like the rest of the poor in his neighborhood. But one day, Amerigo learns that a train will take him away from the rubble-strewn streets of the city to spend the winter with a family in the north, where he will be safe and have warm clothes and food to eat. Together with thousands of other southern children, Amerigo will cross the entire peninsula to a new life. Through his curious, innocent eyes, we see a nation rising from the ashes of war, reborn. As he comes to enjoy his new surroundings and the possibilities for a better future, Amerigo will make the heartbreaking choice to leave his mother and become a member of his adoptive family. Amerigo's journey is a moving story of memory, indelible bonds, artistry, and self-exploration, and a soaring examination of what family can truly mean. Ultimately Amerigo comes to understand that sometimes we must give up everything, even a mother's love, to find our destiny.

Olive Germplasm - Innocenzo Muzzalupo 2012-12-05

The olive (*Olea europaea*) is increasingly recognized as a crop of great economic and health importance world-wide. Olive growing in Italy is very important, but there is still a high degree of confusion regarding the genetic identity of cultivars. This book is a source of recently accumulated information on olive trees and on olive oil industry. The objective of this book is to provide knowledge which is appropriate for students, scientists, both experienced and inexperienced horticulturists and, in general, for anyone wishing to acquire

knowledge and experience of olive cultivation to increase productivity and improve product quality. The book is divided into two parts: I) the olive cultivation, table olive and olive oil industry in Italy and II) Italian catalogue of olive varieties. All chapters have been written by renowned professionals working on olive cultivation, table olives and olive oil production and related disciplines. Part I covers all aspects of olive fruit production, from site selection, recommended varieties, pest and disease control, to primary and secondary processing. Part II contains the chapter on the description of Italian olive varieties. It is well illustrated and includes 200 elaiographic cards with colour photos, graphs and tables.

The School and Society - John Dewey 1915

First published in 1899, "The School and Society" describes John Dewey's experiences with his own famous Laboratory School, started in 1896.

Dewey's experiments at the Laboratory School reflected his original social and educational philosophy based on American experience and concepts of democracy, not on European education models then in vogue. This forerunner of the major works shows Dewey's pervasive concern with the need for a rich, dynamic, and viable society. In his introduction to this volume, Joe R. Burnett states Dewey's theme. Industrialization, urbanization, science, and technology have created a revolution the schools cannot ignore. Dewey carries this theme through eight chapters:

The School and Social Progress; The School and the Life of the Child; Waste in Education; Three Years of the University Elementary School; The Psychology of Elementary Education; Froebel's Educational Principles; The Psychology of Occupations; and the Development of Attention.

The Hanoverian Dimension in British History,

1714-1837 - Brendan Simms
2007-02-08

For more than 120 years (1714-1837) Great Britain was linked to the German Electorate, later Kingdom, of Hanover through Personal Union. This made Britain a continental European state in many respects, and diluted her sense of insular apartness. The geopolitical focus of Britain was now as much on Germany, on the Elbe and the Weser as it was on the Channel or overseas. At the same time, the Hanoverian connection was a major and highly controversial factor in British high politics and popular political debate. This volume was the first systematically to explore the

subject by a team of experts drawn from the UK, US and Germany. They integrate the burgeoning specialist literature on aspects of the Personal Union into the broader history of eighteenth- and early nineteenth-century Britain. Never before had the impact of the Hanoverian connection on British politics, monarchy and the public sphere, been so thoroughly investigated.

Liquid Life - Zygmunt Bauman
2013-04-18

'Liquid life' is the kind of life commonly lived in our contemporary, liquid-modern society. Liquid life cannot stay on course, as liquid-modern society cannot keep its shape for long. Liquid life is a precarious life, lived under conditions of constant uncertainty. The most acute and stubborn worries that haunt this liquid life are the fears of being caught napping, of failing to catch up with fast moving events, of overlooking the 'use by' dates and being saddled with worthless possessions, of missing the moment calling for a change of

tack and being left behind. Liquid life is also shot through by a contradiction: it ought to be a (possibly unending) series of new beginnings, yet precisely for that reason it is full of worries about swift and painless endings, without which new beginnings would be unthinkable. Among the arts of liquid-modern living and the skills needed to practice them, getting rid of things takes precedence over their acquisition. This and other challenges of life in a liquid-modern society are traced and unravelled in the successive chapters of this new book by one of the most brilliant and original social thinkers of our time.

Futurist Women - Paola Sica
2016-01-26
Futurist Women broadens
current debates on Futurism
and literary studies by
demonstrating the expanding
global impact of women
Futurist artists and writers in
the period succeeding the First
World War. This study initially
focuses on the local: the
making of the self in the work
by the women who were
affiliated with the journal
L'Italia futurista during World
War I in Florence. But then it
broadens its field of inquiry to
the global. It compares the
achievements of these women
with those of key precursors
and followers. It also conceives
these women's work as an
ongoing dialogue with
contemporary political and
scientific trends in Europe and
North America, especially first
wave feminism, eugenics,
naturism and esotericism.
Finally, it examines the vital
importance and repercussions
of these women's ideas in
current debates on gender and

the posthuman condition. This ground-breaking study will prove invaluable for all

scholars and upper-level students of modern European literature, Futurism, and gender studies.
