From choosing environmentally friendly diapers to identifying the hidden toxins in children's food, cribs, car seats, and toys, Green Mama discusses topics that are vitally important to new parents. What are the most pressing problems facing new parents today? As the world has

become increasingly more complicated, so has parenting. We are concerned about pervasive toxins in the environment and anxious to raise our children in ways that will protect them as well as safeguard our already fragile world. Manda Aufochs Gillespie, the Green Mama, shares what today's science and Grandma's traditional wisdom tell us about prenatal care for mothers-to-be, breastfeeding, detoxifying the nursery, diapering, caring for baby's skin, feeding a family, and healthy play — redefining the basics of parenting for today's world. With an upbeat tone, stories of parents who have been there, real-world advice for when money matters more, and practical steps geared toward immediate success, The Green Mama engages and guides even the busiest, most sleep-deprived parent. The Green Mama helps parents become what they were always meant to be: experts on the care of their own children.

The Way of Tarot - Alejandro Jodorowsky
2009-11-17

Filmmaker Alejandro Jodorowsky's insights into the Tarot as a spiritual path • Works with the original Marseille Tarot to reveal the roots of Western wisdom • Provides the key to the symbolic language of the Tarot's "nomadic cathedral" • Transforms a simple divination tool into a vehicle for self-realization and healing

Alejandro Jodorowsky's profound study of the Tarot, which began in the early 1950s, reveals it to be far more than a simple divination device. The Tarot is first and foremost a powerful instrument of self-knowledge and a representation of the structure of the soul. The Way of Tarot shows that the entire deck is structured like a temple, or a mandala, which is both an image of the world and a representation of the divine. The authors use the sacred art of the original Marseille Tarot--created during a time of religious tolerance in the 11th century--to reconnect with the roots of the Tarot's Western esoteric wisdom. They explain that the Tarot is a "nomadic cathedral" whose parts--the

78 cards or “arcana”--should always be viewed with an awareness of the whole structure. This understanding is essential to fully grasp the Tarot’s hermetic symbolism. The authors explore the secret associations behind the hierarchy of the cards and the correspondences between the suits and energies within human beings. Each description of the Major Arcana includes key word summaries, symbolic meanings, traditional interpretations, and a section where the card speaks for itself. Jodorowsky and Costa then take the art of reading the Tarot to a depth never before possible. Using their work with Tarology, a new psychological approach that uses the symbolism and optical language of the Tarot to create a mirror image of the personality, they offer a powerful tool for self-realization, creativity, and healing.

The Quality Toolbox, Second Edition - Nancy R. Tague 2005-01-01

The Quality Toolbox is a comprehensive reference to a variety of methods and techniques: those most commonly used for quality improvement, many less commonly used, and some created by the author and not available elsewhere. The reader will find the widely used seven basic quality control tools (for example, fishbone diagram, and Pareto chart) as well as the newer management and planning tools. Tools are included for generating and organizing ideas, evaluating ideas, analyzing processes, determining root causes, planning, and basic data-handling and statistics. The book is written and organized to be as simple as possible to use so that anyone can find and learn new tools without a teacher. Above all, this is an instruction book. The reader can learn new tools or, for familiar tools, discover new variations or applications. It also is a reference book, organized so that a half-remembered tool can be found and reviewed easily, and the right tool to solve a particular problem or achieve a specific

goal can be quickly identified. With this book close at hand, a quality improvement team becomes capable of more efficient and effective work with less assistance from a trained quality consultant. Quality and training professionals also will find it a handy reference and quick way to expand their repertoire of tools, techniques, applications, and tricks. For this second edition, Tague added 34 tools and 18 variations. The "Quality Improvement Stories" chapter has been expanded to include detailed case studies from three Baldrige Award winners. An entirely new chapter, "Mega-Tools: Quality Management Systems," puts the tools into two contexts: the historical evolution of quality improvement and the quality management systems within which the tools are used. This edition liberally uses icons with each tool description to reinforce for the reader what kind of tool it is and where it is used within the improvement process.

Power and Pinstripes - Jeff Mangold
2021-06-08

A fascinating look inside the inner sanctum of the Steinbrenner era Yankees No team in American sports has as storied a history as the New York Yankees, winners of 27 World Series. As the strength and conditioning coach for the Yankees for parts of three decades, Jeff Mangold was firmly embedded in building the dynasty of the 1990s and 2000s. In Power and

Pinstripes, Mangold shares priceless stories from his 14 seasons behind the scenes in the Bronx. Mangold had a front-row seat to the daily drama of George Steinbrenner's revolving door of managers—Yogi Berra, Billy Martin, and Lou Piniella—in the 1980s. Then, when he returned to the Yankees in 1998, he joined a juggernaut of a team and was tasked with maintaining the health of a star-studded roster including the Core Four of Derek Jeter, Jorge Posada, Andy Pettitte, and Mariano Rivera. Mangold shares personal tales of finding his way with stars like Dave Winfield and Ron Guidry, motivating personalities like David Wells, and facing a thorny challenge that later became a scandal when Roger Clemens and other Yankees arrived at spring training with their own personal strength coaches in tow. Yankees fans will not want to miss this unique perspective on a the franchise during one of baseball's most exciting and controversial eras.

Global Status Report on Road Safety 2018 -

World Health Organization 2019-01-10

The Global Status Report on Road Safety 2018, launched by WHO in December 2018, highlights that the number of annual road traffic deaths has reached 1.35 million. Road traffic injuries are now the leading killer of people aged 5-29 years. The burden is disproportionately borne by pedestrians, cyclists and motorcyclists, in particular those living in developing countries. The report suggests that the price paid for mobility is too high, especially because proven measures exist. Drastic action is needed to put these measures in place to meet any future

global target that might be set and save lives.
