Clinical Manual of Electroconvulsive Therapy - Mehul V. Mankad 2010

The authors of Clinical Manual of Electroconvulsive Therapy offer this volume to help psychiatrists successfully incorporate electroconvulsive therapy (ECT) into their

clinical practices. ECT remains the definitive treatment for a variety of mental disorders because it is often effective when other treatments fail. The book updates the 1985 original and 1998 second edition of Electroconvulsive Therapy: A Programmed Text,

and provides readers with a scheduled approach to understanding the fundamental concepts of ECT while offering practical guidance for establishing and maintaining an ECT program. Included are detailed descriptions of recent advances that have made this very effective treatment much safer and more acceptable to patients. Currently, it is estimated that more than 100,000 people receive ECT treatments each year in the U.S. Indications for use of ECT are for mood disorders such as major depressive disorder and mania, and for thought disorders including schizophrenia and schizoaffective disorder. Indications for use in other psychiatric disorders and general medical disorders are reviewed as well. Patient information sheets and a written consent form are also provided.

Design and Analysis - Bernard Leupen 1997

Yes, Doctor - Renee Rose 2021-05-06

When Dr. Darren Drake catches his Certified Nurse Assistant smoking behind the clinic and gushing on the phone about him, he decides she requires punishment: an embarrassing examination including anal play. Playing around with an employee opens him up for sexual harassment charges or getting kicked out of his practice, but when Chloe asks for more, he just can't resist. Despite working in an OB/Gyn clinic, Chloe hates doctors. Their know-it-all God-playing rubs her the wrong way—until the man she refers to as Dr. Dreamy shows her giving up control might fulfill fantasies of submission she never knew she had. He seems to enjoy torturing her in the most delicious ways, but he also reduces her to stammers and blushes, which makes it hard to get to know one another. Can he use his dominance to remove all semblance of control, leaving her with no option but to obey

and show her true heart?

Mechanics of Materials - James M. Gere 1999

This solutions manual provides complete worked solutions to all the problems and exercises in the fourth SI edition of Mechanics of Materials.

Introduction to Public Policy - Charles Wheelan 2010-01-26

The first introductory public policy text with a strong economics perspective. A new textbook by Charles Wheelan, author of Naked Economics, Introduction to Public Policy uses economic principles to demonstrate that sound public policy occurs when unfettered private markets provide the greatest good for the greatest number. Only when it does not do this is government intervention needed.

Compact Numerical Methods for Computers - John C. Nash 1990-01-01

This second edition of Compact Numerical Methods for Computers presents reliable yet compact algorithms for computational problems. As in the previous edition, the author considers

specific mathematical problems of wide applicability, develops approaches to a solution and the consequent algorithm, and provides the program steps. He emphasizes useful applicable methods from various scientific research fields, ranging from mathematical physics to commodity production modeling. While the ubiquitous personal computer is the particular focus, the methods have been implemented on computers as small as a programmable pocket calculator and as large as a highly parallel supercomputer. New to the Second Edition Presents program steps as Turbo Pascal code Includes more algorithmic examples Contains an extended bibliography The accompanying software (available by coupon at no charge) includes not only the algorithm source codes, but also driver programs, example data, and several utility codes to help in the software engineering of end-user programs. The codes are designed for rapid implementation and reliable use in a wide variety of computing

environments. Scientists, statisticians, engineers, and economists who prepare/modify programs for use in their work will find this resource invaluable. Moreover, since little previous training in numerical analysis is required, the book can also be used as a supplementary text for courses on numerical methods and mathematical software.

Real Flavours - Glynn Christian 2012-08-24
Gourmand World Cookbook Award winner: An “elegantly written, amusing and engaging” reference for chefs (Country Living). Real Flavours is an entirely rewritten and updated third edition of Glynn Christian’s Delicatessen Food Handbook, described by Nigel Slater as “one of the only ten books you need.” It’s a handbook of specialty ingredient information, from salt and pepper through olive oil to caviar: It not only tells you what an ingredient is and what it should look and taste like, it also tells you what it goes with and how to use it. Born in New Zealand and renowned in Britain for his

BBC appearances, Glynn Christian offers plenty of wit and anecdotes from a life spent traveling, cooking on TV, and writing for magazines and newspapers—in a reference book you’ll end up reading like a novel. “One of the best ever compendiums of gourmet and deli foods.”

Celestial Bodies in Orbit - Eve Littlepage 2012-12-20

Eve Littlepage made her living as striptease dancer 'Lisa Doolittle' in the suburbs of Boston for ten years, from the mid-1970s through the mid-80s. Her memoir is about how she fell into this marginalized profession, some of the

craziness that happened while she was in it, and how she struggled to find a way out and into a more wholesome life. Littlepage uses a unique vehicle for sharing her story: it is told interview-style to a fictional author named Stella Mars. This unusual method evokes a sense that one is eavesdropping on a very private conversation as Eve shares her secrets with Stella. The story weaves memories of her personal life together with reflections on her stripping career, and shows how the contrasting aspects of the two played off of each other as she evolved and grew through her varied experiences. Though metaphysics is not the main focus, Eve's story is laced with references to the I Ching, ghostly visitations, spiritual epiphanies, and other mystical themes. It may offer hope and inspiration to anyone who has ever felt stuck in a job or relationship that seemed impossible to escape. It is a tale of perseverance, resilience, and hope, sprinkled with humor and insight. One reader called it, ..". a coming-of-age story with

more universal appeal than one might expect in a stripper's memoir." It's about choices and the ripple effect they create. It's Eve's 'secret past' - for your entertainment!

Environmental Advertising in China and the USA - Xinghua Li 2016-05-05

Since the late 1980s, green consumerism has been hailed in the West as an efficient solution to environmental problems. However, Chinese consumers have been slow to warm up to eco-friendly products. Consumers prefer SUVs to hybrid cars, health supplements and snake oil medicines to organic foods and eco-fashion is still secluded in high-end designer studios. These choices contradict the findings of many sustainable lifestyle surveys that claim to register a rising desire for green products among the Chinese. This book examines the psycho-cultural differences that disrupt the translation of "eco-friendly" appeals to China by analyzing environmental advertising. It explores the different notions of "green", the structures of

desire that underlies the advertisements, and how they are shaped by ideological, cultural, and historical differences. Rather than arguing the superiority of the American or Chinese version of green consumerism, the book interrogates the role of advertising in the global spread of Western ideologies and explores the possibilities for consumers to resist transnational corporate hegemony in the green movement. This book fills an important gap in the critical scholarship on green marketing and should be of interest to students and scholars of environment studies, green advertising and marketing, environmental communication and media studies, China studies and environmental sociology, ethics and cultural studies.

life.love.beauty - Keegan Allen 2015-02-03

"This book takes you on a photographic voyage through my life so far." -Keegan Allen Keegan Allen is currently known to fans of the ABC Family hit television series, *Pretty Little Liars*. He has also appeared in numerous independent films and made his New York Stage debut in the acclaimed MCC production of *Small Engine Repair*. Keegan was given his first camera at age nine, and began a lifelong study and pursuit of photography. *life.love.beauty* is a selection of photographs taken since his childhood. It's a photo journey through the life of an intensely creative soul whose expression finds various

forms: in acting, in poems and stories, lyrics and music, but above all in photography. This book's content resonates in the commonality we all share on our own journeys while unveiling an inside look into a world that very few experience. Organized into three broad groups—life, love, and beauty—the book ranges over the public and private side of Keegan Allen and his world. A child of Hollywood, whose father was also an actor and his mother a painter, Keegan roams freely through that realm, photographing his fellow actors on set, behind the scenes; and recording the amazed, gleeful, sometimes weeping fans that flock to his television and career related events. Allen also has an eye for the anonymous and the unexpected: the woman gazing dreamily from the balcony of a run-down hotel; the rifle-toting dog walker who seems to have emerged from the 19th century; the performers and denizens of Venice Beach and also the streets of New York, some of them chasing the dream of fame, others

having long-since abandoned it; the little boy amid in the crowd in an enormous airport; portraits of lovers kissing on subways, in parks, and on the streets. Traveling from California to New York to Paris and back, as well as through the American west, he finds beauty in both urban and rural places: from large-scale landscapes to glimpses of light transforming what it touches. Keegan's poems, stories, captions and musings, song lyrics, and journal pages complement the photographs on this journey. He provides an account of growing up just off the Sunset Strip, coming into his own as an actor/artist, dealing with public recognition while maintaining a very private life, falling in and out of love, and acknowledging the influence of his family, friends, fans, and loved ones. *life.love.beauty* is an unusually intimate and revealing book: a delight for anyone who values photography, and a gift for the many fans who already follow Keegan's career. Keegan's real passion comes through in both his photographs

and candid story telling in this unique photo-journal.

The Celestine Prophecy - James Redfield

Truth and Fiction: Notes on (Exceptional) Faith in Art - Milcho Manchevski 2012

"Reflecting upon his experience making his 2010 feature film *Mothers*, a cinematic triptych interweaving three narratives that are each, in their own way, about the often tenuous lines between truth and fiction. In this extended essay, Manchevski ruminates the different ways in which both filmmakers and audiences create, experience, and absorb the cinematic narrative with a certain trust and faith in the artwork to render, not the factual truth, per se, but the importantly shared experience of trusting "the plane of reality created by the work itself". "--P. 4 of cover.
