Bringers of the Dawn - Barbara Marciniak
1992-12-01

Compiled from more than four hundred hours of channeling by Barbara Marciniak, *Bringers of the Dawn* imparts to us the wisdom of the Pleiadians, a group of enlightened beings who have come to Earth to help us discover how to reach a new stage of evolution. Master storytellers and humorists, they advise us to become media free, to work in teams, and to eliminate the words "should" and "try" from our vocabularies. We learn how to go beyond fear, how the original human was a magnificent being with twelve strands of DNA and twelve chakra centers, and who our "gods" are. Startling, intense, intelligent, and controversial, these teachings offer essential reading for anyone questioning their existence on this planet and the direction of our collective conscious--and unconscious. By remembering that we are Family of Light, that we share an ancient ancestry with the universe around us, we

become "bringers of the dawn," consciously creating a new reality, a new Earth.

The Dawn of Everything - David Graeber
2021-11-09

INSTANT NEW YORK TIMES BESTSELLER A dramatically new understanding of human history, challenging our most fundamental assumptions about social evolution—from the development of agriculture and cities to the origins of the state, democracy, and inequality—and revealing new possibilities for human emancipation. For generations, our remote ancestors have been cast as primitive and childlike—either free and equal innocents, or thuggish and warlike. Civilization, we are told, could be achieved only by sacrificing those original freedoms or, alternatively, by taming our baser instincts. David Graeber and David

Wengrow show how such theories first emerged in the eighteenth century as a conservative reaction to powerful critiques of European society posed by Indigenous observers and intellectuals. Revisiting this encounter has startling implications for how we make sense of human history today, including the origins of farming, property, cities, democracy, slavery, and civilization itself. Drawing on pathbreaking research in archaeology and anthropology, the authors show how history becomes a far more interesting place once we learn to throw off our conceptual shackles and perceive what's really there. If humans did not spend 95 percent of their evolutionary past in tiny bands of hunter-gatherers, what were they doing all that time? If agriculture, and cities, did not mean a plunge into hierarchy and domination, then what kinds of social and economic organization did they lead to? The answers are often unexpected, and suggest that the course of human history may be less set in stone, and more full of playful, hopeful

possibilities, than we tend to assume. The Dawn of Everything fundamentally transforms our understanding of the human past and offers a path toward imagining new forms of freedom, new ways of organizing society. This is a monumental book of formidable intellectual range, animated by curiosity, moral vision, and a faith in the power of direct action. Includes Black-and-White Illustrations

The Cosmic Family, Volume I - Gabriel Of Urantia - Taliasvan Of Tora 2011-02

As our world continues to plummet deeper into turmoil--economically, environmentally, politically, and socially--The Cosmic Family volumes shine the light of hope, presenting truth through epochal revelation. These volumes provide real answers for the crises our world faces, explaining how every soul can genuinely contribute to healing their own lives and our planet. This first volume introduces the world to

new cosmic concepts and terminology, offering the serious spiritual seeker a unique framework to launch off from into new dimensions. The Cosmic Family, Volume I additionally clarifies fallacies and formerly confusing and deceptive teachings in relation to certain New Age topics. The Cosmic Family volumes, which are the continuation of The URANTIA Book (called the Fifth Epochal Revelation), reveal unprecedented cosmic knowledge, fusing science and spirituality into ascension science. Establishing the foundation of The Cosmic Family volumes, this first volume begins to explain the current suffering state of our world and offers specific steps to take in achieving positive and sustainable global change. The Cosmic Family volumes (the Continuing Fifth Epochal Revelation) challenge the minds and souls of those who have accepted a false reality, which cannot bring true happiness, peace, and harmony. The Cosmic Family, Volume I explains some of the Lucifer Rebellion and Lucifer's

Manifesto, perpetrated upon the peoples of this planet for hundreds of thousands of years, contributing to the present state of chaos and suffering. Spiritual leader Gabriel of Urantia is an Audio Fusion Material Complement (for further explanation see The Cosmic Family volumes), activist, teacher, musician, and author. Living Energy - Robert Campagnola 2014-03-19

The life force, also known as "spirit," is the essence of being and the conscious and most important form of energy. Living energy is personal and within our conscious control, and by learning about it, we can use it to transform our life into vibrant and meaningful expressions

of who we really are. Consciousness is purely energetic and therefore difficult to quantify in mechanistic terms. It is the characteristic of living energy and is the foundation of awareness. Consciousness is the thread running through all life. Living Energy is an introduction to the process of mystic spirituality. The reader is encouraged to attain a deep and meaningful connection to the divine with expanded awareness. The principles given in this book are equally relevant to the novice and the advanced practitioner. Robert explains how we may reveal our hidden potential by shifting our perception away from what is customary and comfortable to open the doors to greater spiritual awareness.

The Holiest of the Holies (THOTH), the Last Testament - Maitreya (Joseph Emmanuel) 2013-06-20

For thousands of years humanity has longed for a truth, revelation, or knowledge that explains the unity of God behind all mystical experiences, previous revelations, and religions of the world,

and the truth behind the universe (science). There have been mystical explanations of God from those claiming they have experienced the truth by direct contact with Spirit. There are also those who have founded great religions of the world. However, a great confusion still reigns among spiritualists, religions of the world, and the many different branches within each religion. If you study this Book carefully, with a sincere mind and an Open Heart, it will be revealed to you that the major religions on earth are not contradictory and separated at all. In fact they are complementary and were sent to earth systematically by One God. When this is understood, the Path to Salvation (Eternal Divine Path) is known! This book is the main writing of Maitreya of the Mission of Maitreya:

Gaming and the Divine - Frank G. Bosman

2019-03-28

This book formulates a new theological approach to the study of religion in gaming. Video games

have become one of the most important cultural artefacts of modern society, both as mediators of cultural, social, and religious values and in terms of commercial success. This has led to a significant increase in the critical analysis of this relatively new medium, but theology as an academic discipline is noticeably behind the other humanities on this subject. The book first covers the fundamentals of cultural theology and video games. It then moves on to set out a Christian systematic theology of gaming, focussing on creational theology, Christology, anthropology, evil, moral theology, and thanatology. Each chapter introduces case studies from video games connected to the specific theme. In contrast to many studies which focus on online multiplayer games, the examples considered are largely single player games with distinct narratives and 'end of game' moments. The book concludes by synthesising these themes into a new theology of video games. This study addresses a significant aspect

of contemporary society that has yet to be discussed in any depth by theologians. It is, therefore, a fantastic resource for any scholar engaging with the religious aspects of digital and popular culture.

Winterhawk's Land - Michael Dante
Michael Dante played the title role in Winterhawk (1975), a Western about a legendary Blackfoot Chief's character and his principles. In this novella sequel, he pens an ageless saga about ruthless railroad executives trying to assassinate him in order to build their railroad directly through his territory, taking the Blackfoot land without provocation. Winterhawk and his tribe remain strong as long as they can, to protect the land of their people, the land they call home, before the invasion of progress imposes itself on America. This inspiring story of a brave man, who stands up to and fight against those who have their own agenda for his land, evokes the nostalgic atmosphere of Western series that Dante frequently appeared in during American television's Golden Era, such as Death Valley Days, The Big Valley, Daniel Boone, Custer, The Texan, Bonanza, Maverick, and Cheyenne.
